

Your bill explained

We'd like to welcome you to your new bill. Designed by our customers, the layout makes it easy for you to see exactly what you owe and when you need to pay. This handy guide will help you understand all the charges on your monthly bill.

1 Payment due date

The amount you owe and the date your payment is due will be displayed here. VAT is included in the final amount due.

2 Your bill summary

A summary of your charges will be displayed here. The summary includes 3 sections, each one colour coded to make it simple to read.

- **Your plan:** this is the total amount due for your plan for the billing period. It is charged monthly in advance.
- **Add-ons:** this includes any additional services you subscribed to for the billing period e.g. TV multi-room monthly rental.
- **Other charges:** includes any additional charges incurred outside your basic plan to your account for the previous month e.g. out of bundle call charges or a new modem.

Any credit or discounts on your account will be displayed in your bill summary.

Outstanding balance prior to this bill – includes any balances you owe or any refunds due to you from previous bills.

3 Your bill information

Bill number – this is the unique bill number which will assist you in identifying a specific bill should you have a query.

Bill period – this is the period you will be charged for.

Bill issue date – this is the date on which the bill was issued to you.

Account number – it is useful to keep your Vodafone account number to hand when contacting Vodafone with queries or to avail of new products and services.

Universal Account Number - this is the 8-digit number that telecom providers use to identify phone lines.

Circuit reference number - this is the unique identifier for your Vodafone Broadband account. A CRN is provided if you avail of our standalone broadband service which does not include a landline voice service. If you have a voice and broadband bundle from Vodafone then you will have a landline number rather than a CRN.

4 Your account history

This includes your bill for the current period and any outstanding charges not paid from a previous bill.

5 Your bill in more detail

This provides more detail on your Vodafone plan and includes a breakdown of your plan, any additional services you subscribe to and any charges incurred when you exceed the allowance on your plan e.g. calls to international numbers.

Plan part charges explained:

This chart will be displayed on your bill if you change or add a plan in the middle of your bill period. Changes to your plan can result in a part-month charge. This means you will be billed from the date your new plan/add on started, and, if applicable, you will be credited for the element of the previous plans that you paid for in advance.

6 Your usage in more detail

Top 10 called numbers from your landline:

This provides detail of the top 10 voice numbers you called during the bill period, including the total call duration for each number. Numbers are sorted based on chargeable calls and call duration.

Useful information

How to change your details
Update personal details such as address and contact email address online.

Log into My Vodafone via the App or at www.vodafone.ie/myv

Payment methods
To set up Direct Debit or pay by Credit Card log into My Vodafone via the App or at

www.vodafone.ie/myv
Alternatively pay

via your internet/phone banking or in your local post office.

What are out of plan charges

These cover any charges related to services used outside of your plan and add-ons. For example, premium rate calls and multimedia messages. For more information please visit www.vodafone.ie/support

Frequently asked questions

How do I analyse my bill?

You can analyse your bills for the previous 12 months through My Vodafone online and the app. By clicking “Billing statistics”, you can view your bill history and total spend. You can also view a breakdown of your calls, analyse your top ten called numbers or top ten longest calls. For greater insight, you can download your detailed call usage and more.

What are part charges?

Part charges occur when you change or add a plan/add-on in the middle of your bill period. Such changes will result in a part-month charge. This means you will be billed from the date your new plan/add-on started,

What is a summary bill?

You can also choose to receive a summary bill. New customers will automatically receive a summary bill. You will clearly see your plan details and bill charges, however, on a summary bill you will only see charges for calls and broadband used outside your plan allowance. Any calls or broadband allowance included in your plan, will not be displayed on your bill. Resulting in less pages for you to read. You can see a breakdown of all your calls and out of bundle broadband usage through My Vodafone online and the app.

What is a detailed bill?

Similar to the summary bill, your plan details and bill charges will be clearly displayed. However, your detailed bill will include all calls used during the billing period, those inside and outside your plan allowance.
