To check the size of your MMS, insert all objects, i.e. voice recording, video, picture and text.

The size is displayed at the top left corner (beside the camera icon). We cannot guarantee delivery of Picture Messages over 100KB in size on a non-3G phone.

- **Data Services (GPRS and the Internet)**

The Mobile Internet pricing above is recommended for all customers and is the default charging on all pay as you go handsets we sell. This charging is through the Vodafone Live! connection point (APN) which adapts websites for mobile viewing.

However, some advanced users may wish to use our ISP connection point. This connection point does not adapt websites for the best mobile viewing. Users as phone as a modem, data telemetry devices or other non-Vodafone Internet devices with a pay as you go SIM card may prefer to use this connection point. Pricing is on a per-KB basis rather than on a per-minute basis. That means you'll be charged on the amount of information (data) you send and/or receive, not on how long your call lasts. All data sent through the ISP APN is charged at 19c per MB on pay as you go.

Calls charged on a per second basis, unless otherwise stated.
