

1. OUR SERVICE

1.1. In the case of mobile services, we are not in a position to guarantee or offer any minimum service levels as to the quality and availability of the Service other than as set out in this Agreement. You may experience issues, from time to time, which impact the quality and availability of the Service. As with all radio based systems the Service may be affected by a number of local factors, such as building materials, tree cover and even weather conditions, the number of people using the network, the movement between locations, damage to the network and so on. Data reception or speed may not be as good indoors or in a car. We cannot guarantee that your Services will be uninterrupted, timely, secure, error-free, or that it will meet your specific requirements.

1.2. For full information on speed, including estimates of the maximum download and upload speeds that you may experience on our network and speed tiering if applicable, please see <https://n.vodafone.ie/support/mobile/data-speed-information.html>. Please note we offer a range of mobile Price Plans and top up offers, some of which contain agreed maximum upload and download speed limits according to various speed tiers. Please see your selected Price Plan or service specific terms and conditions (<https://n.vodafone.ie/terms.html>) for full information on what speed limitations, if any, apply to your plan and how these work. Information on your rights, should you experience issues with your Service including significant deviations from estimated speeds is set out in our Code of Practice as detailed in the General Terms and Conditions of service for Vodafone Business Customers
